

## INSTALLING LOVE

Customer: Well, I'm not very technical, but I think I'm ready to install it now. What do I do first?

Tech Support: The first step is to open your HEART. Have you located your HEART?

Customer: Yes, I have, but there are several other programs running now. Is it okay to install while they are running?

Tech Support: What programs are running/

Customer: Let's see...I have PAST-HURT.exe, LOW-ESTEEM.exe, GRUDGE.exe, and RESENTMENT.exe running now.

Tech Support: No problem. LOVE will gradually erase PAST-HURT.exe from your current operating system. It may remain in your permanent memory, but it will no longer disrupt other programs. LOVE will eventually overwrite LOW-ESTEEM.exe with a module of its own called HIGH-ESTEEM.exe. However, you have to completely turn off GRUDGE.exe and RESENTMENT.exe. Those programs prevent LOVE from being properly installed. Can you turn these off?

Customer: I don't know how to turn them off. Can you tell me how?

Tech Support: My pleasure. Go to your START menu and invoke FORGIVENESS. Do this as many times as necessary until it has erased the programs you don't want.

Customer: Okay, now LOVE has started installing itself automatically. Is that normal?

Tech Support: Yes. You should receive a message that says it will reinstall itself for the life of your HEART. Do you see that message?

Customer: Yes, I do. It is completely installed.

Tech Support: Yes, but remember that you have only the basic program. You need to begin connecting to other HEARTS in order to get the upgrades.

Customer: Oops. I have an error message already. What should I do?

Tech Support: What does the message say?

Customer: It says, "ERROR 412 PROGRAM WILL NOT RUN ON INTERNAL COMPONENTS." What does that mean?

Tech Support: Don't worry. That's a common problem. It means that the LOVE program is set up to run on external HEARTS but has not yet been run on your HEART.

It is one of the complicated programming things, but in non-technical terms it means you have to “LOVE” your own machine before it can “LOVE” others.

Customer: What should I do?

Tech Support: Can you pull down the directory called SELF-ACCEPTANCE?

Customer: Yes, I have it.

Tech Support: Excellent. You’re getting good at this. Now, click on the following files and then copy them to the “MY HEART” directory: FORGIVE SELF.doc, REALIZE WORTH.doc, and ACKNOWLEDGE LIMITATIONS.doc. The system will overwrite any conflicting files and begin patching any faulty programming. Also, you need to delete SELF-CONDEMNATION.doc from all directories. Now, empty the recycle bin afterwards to make sure it is completely gone and never comes back.

Customer: Got it. Hey! My HEART is filling up with new files. SMILE.mpg is playing on my monitor right now and it shows that PEACE.exe and CONTENTMENT.exe are copying themselves all over my HEART. Is this normal?

Tech Support: Sometimes. For others, it takes awhile, but eventually everything gets downloaded at the proper time. So LOVE is installing and running. You should be able to handle it from here. Ah, one more thing.

Customer: Yes:

Tech Support: LOVE is freeware from God. Be sure to give it and its various modules to everybody you meet. They will, in turn, share it with other people, and they will return some similarly cool modules back to you.

Customer: I will! Thank you for your help!
